# BACKGROUND

The LNER B12/3 was a development of the previous B12 class, introduced in 1911 as the Great Eastern Railway Class S69. The B12/3 had a larger diameter, Gresley designed boiler, replete with Gresley smokebox, and a modified cab, being a few inches shorter and a few inches wider than previous. The same tender as used on previous batches was retained, due to the short length of the turntables on the ex-Great Eastern Railway routes the class were intended for. The B12/3 lacked the copper-capped chimneys and decorative coupling rod valancing of the earlier B12 designs, but retained the brass strips on the splashers. One B12/3, 1928-built 8572 (Later 1572 and then 61572) has been preserved on the North Norfolk Railway in Sheringham.

# SPECIFICATION (BI2/3 only)

Power Classification:	4MT
Build Date:	1932
Total Built:	54
Wheel Arrangement:	4-6-0
Length:	57 feet 7 inches
Weight:	69 tons 5 cwt
Number of Cylinders:	2
Cylinder Size:	20inch x 28 inch
Coal Capacity:	4 tons
Water Capacity:	3,700 imp gal
Boiler Pressure:	180psi
Driving Wheel Diameter:	6 Feet 6 inch
Tractive Effort:	21,969 lbs
Designer:	S.D.Holden (Original design) H.N.Gresley (BI2/3 rebuild)

# PACK FEATURES

- Lighting effects for lamps and firebox
- Custom headlamp and headcode disc system, changeable on the fly
- Realistic physics
- Loco information
- Particle steam effects: Sanders, cylinder cocks, safety valves
- Fully TS2014 featured
- Additional liveries: Wartime Black, BR lined Black, Post War Apple Green and Experimental Blue.

# ADDITIONAL CONTROLS

CONTROL	KEY
CTRL+SHIFT+1	HEADCODE LAMP 1
CTRL+SHIFT+2	HEADCODE LAMP 2
CTRL+SHIFT+3	HEADCODE LAMP 3
